

## BRACELET SIZES

a little help how to measure your wrist size

Make sure this guide is printed on A4 size paper and scaled to 100%. To check the accuracy of your printout, put a ruler of your own next to the printed ruler.

Measure your wrist with our Ihimana ruler

- Cut out the ruler
- Cut a horizontal line in the wider part below
- Wrap the ruler around your wrist with the numbered side up
- Slip the numbered end through the horizontal opening and pull until the ruler is tight against your skin
- Add 10 mm for your correct size
